

Appeal from SJB Garden Team

We would like to make flower beds and containers to brighten up the areas around the P1 and P2 classrooms, with the children involved in planting (under supervision and direction).

We would be very grateful for contributions from within the school community to help with this project, so if you are able to donate plants or bulbs such as dahlias, begonias, gladioli etc. it would be very much appreciated. These can be found in the main supermarkets as well as the Range and garden centres.

Any donations can be brought to the school office during school hours.

Thank you,

SJB Garden Team
